<p><b>NOTES:</b>                      Climbing and performing a 29S2 maneuver requires the aircraft to have dived at least 2 altitude levels the previous turn.                      C= May climb to max.                      C1= Max climb is 1.                      D= May dive to max.                      D1= Max dive is 1.                      L= May fly level.                      X= May fly level, but must dive next turn.                      - = May not perform.                      R = Aircraft may perform a restricted maneuver the next turn; Pilots may unjam or reload machine gun(s) while aircraft performs one of these maneuvers (no climbing or diving is permitted during attempt).                      F = +1 Extinguishing Fire</p>
