Breguet 14B2 France, Belgium and USA

Service: Sep'17 - End. Many aircraft were equipped with twin, observer operated, Lewis Guns. On some aircraft a third downward firing Lewis Gun (Fire Template "C") was sometimes mounted to protect the aircraft from attacks from below and behind. Observer may not operate Lewis Gun mounting "B" and "C" on the same turn. If players want to arm the aircraft with a single rear firing Lewis Gun, use Fire Template "B" for its fire arc, but use Template "C" for its fire Combat Base Value.
