AIRCRAFT USE:
 Bomber
 Reconnaissance

Taube (Dove) Austria-Hungary, Germany, Japan and Italy

Service: 1914 - Nov '15; Germany's first military aircraft. Few were equipped with machine guns, but instead relied on observers being equipped with carbines, rifles, automatic rifles, pistols, etc. Aircraft was also in use in the Italian airforce, but it is unlikely that it was employed as a combat aircraft by the time Italy entered the war. Japan purchased only a few of these aircraft in mid 1915.
